School for the Planet

## Bush Lore

It was another busy bush week for our Prep: The Grade One children felt just like 'Jack' from the well-known fairy tale, and were amazed at the abundant growth in the vegetable garden as they had fun hiding in the shade of a beanstalk 'tepee'. The Grade Two's integrated with the older Grade Eight learners to make a refreshing 'cuppa', using Bush Willow leaves.

## Sleep Tight Earth Tots

It is amazing how Teacher Di's "Fairy Dust" works in our Earth Tots class – "Sweet dreams little angels"

## Grade 6 Photosynthesis Experiment

The Grade 6 class learnt about photosynthesis and had to create their own practical experiment to investigate whether plants need sunlight for photosynthesis. A few interesting methods were used and they soon realised that it was quite tricky to set up a fair experiment.

## Congratulations!

### Green Awards

The following Green Awards were presented at assembly on Friday, 26 January 2018

Ebenezer Mongwe, Luke Lombard, Enola de Biasi, Rorishang Sekhukhune, Zahra Pollard, Thomas Imrie, Samantha Ferreira, Jade Mollett and Elektra Gelletich

## Sabi Sand - What a View!

SCS Sabi Sand – The importance of taking a moment to relax during a busy day cannot be underestimated, especially when one has a beautiful view to enjoy!
