School for the Planet

## Family!

A special family – Our dear Saison was welcomed to sit and take a break to chat with the Pre-school children this week. Saison is always ready to lend a hand and has been busy repairing the game viewer that is a favourite amongst our little ones.

## Collaborative Learning

Being new to the SCS Senior Primary part of school, the Grade Four class are learning the value of collaborative study for their cycle tests.

## Doing it Together

“Coming together is a beginning, keeping together is progress, working together is success.”- Henry Ford. Here our Grade Three Class is demonstrating effective group work. Learning together is much more fun!

## Sabi Sand - Hands on Learning

SCS Sabi Sand – Hands on learning is the best kind of learning. Our children can't wait to see what their seedlings are going to turn into! This quote says it all!
